Petition update

Door-knocking this weekend, three upcoming public forums

Nittany Valley Environmental Coalition
State College, PA

Mar 8, 2018 — From Sierra Club - Moshannon Group

For those interested in helping to block Nestle from pumping water in the Spring Creek Watershed, there will be a door-to-door flyer drop in Spring Township.

The plan is to go out this weekend from 1 - 5 pm on Saturday, March 10 and Sunday, March 11.

We're meeting at the home of Courtney Morris, 268 S. Main St. in Pleasant Gap near the Pleasant Gap Elementary School. Park around the corner on Whiterock Road.

For more information, contact Lynne Heritage - llheritage@comcast.net.

From ClearWater Conservancy

<http://conta.cc/2FkgKLQ>

Join the conversation about the management of our water resources: March 12, March 14, and April 18

On February 28, the Spring Township Water Authority voted to adopt a "Water Supply Agreement Term Sheet" between Nestle Waters North America and STWA. This Term Sheet is not a legally binding, finalized agreement. According to the document which can be found here,

the ‘Term Sheet constitutes only an outline of significant terms and a statement of mutual intentions.’

As illustrated by Jim McClure in 1981 (image above), ClearWater Conservancy is founded on the belief that ‘we’re all in the same bathtub.’ The water each one of us relies on for household, industrial, and recreational use knows no municipal boundaries. We all share the important job of responsibly managing our region’s water supply.

Below are upcoming opportunities to stay informed, ask questions, and provide feedback regarding Nestle’s proposed plan to purchase water from Spring Township Water Authority and build a bottled water manufacturing facility in the region.

Please note the varying hosts and Q&A formats for each event.

Monday, March 12 – 6:30-8:30 pm – Nestle public information session

Hosted by Nestle, Central Pennsylvania Institute of Science and Technology (CPI), 540 N. Harrison Road, Pleasant Gap

Nestle Waters regional Natural Resource Manager Eric Andreus will give a short presentation about the proposed factory located in Spring or Benner townships. A panel of experts will also be available to answer questions. Community members can submit questions by filling out a card before the session, by emailing NWNA.Pennsylvania@outlook.com or calling 1-800-450-7599.

Wednesday, March 14 – 6:30-9:00 pm – NO to Nestle Forum

Sponsored by the Sierra Club Moshannon Group and Nittany Valley Environmental Coalition, Central Pennsylvania Institute of Science and Technology (CPI), 540 N. Harrison Road, Pleasant Gap

Event information provided by hosts: Nestle wants to extract a over 360,000 gallons of groundwater per day from Spring Creek Watershed and build a plastic water bottling plant in either Spring or Benner Township. This is 32X what the largest commercial customer uses currently. Concerned citizens have organized a public forum about the issues. Please bring your questions, concerns and your reusable water bottle!

Wednesday, April 18 – Time to be determined – Water Use Forum

Hosted by Spring Creek Watershed Commission, Central Pennsylvania Institute of Science and Technology (CPI), 540 N. Harrison Road, Pleasant Gap

A water use forum will be hosted by Lara Fowler from Penn State Law. The forum is at the invitation of the Spring Creek Watershed Commission. Lara teaches an environmental mediation course at Penn State and will be inviting in all interested stakeholders to discuss factual realities and concerns around water uses and seek to establish a record of common ground with her 18 students from her class. Denny Hameister who chaired the commission may be able to offer additional insight.
