## Regional Park Planning Survey Results - Sep/Oct 2008

Posted 7 Nov 08

Our thanks to each resident who completed a survey form!

The **paper survey** was mailed to 2,422 randomly-selected households across the five participating municipalities in the Centre Region in early-Sept. 166 surveys were undeliverable, which left a pool of 2,257 households. 499 (22%) completed surveys were returned and analyzed by Pashek and Associates. The answers have been arranged in order of popularity from the paper survey.

The **web-based survey** with the same questions was available on this website from 3-26 Oct 08. The availability of this survey was advertised in the Centre Daily Times. The form would accept only fully-completed survey forms. 538 forms were submitted for analysis & reporting by Elizabeth Covelli, a Penn State graduate student in Recreation, Parks & Tourism Mgmt.

Dear Centre Region Residents,

The five municipalities in the State College area have expanded their cooperation for parks and recreation to acquire, plan, and develop two "regional" parks. These parks will serve all residents in future years. The Oak Hall parklands consists of 68 acres and the Whitehall Road parklands is a 75-acre tract. The focus of these parks will be to:

- Provide outdoor, active recreation facilities close to home for families, groups and individuals;
- Promote the value of activity and fitness;
- Host community-based sport groups / organizations for both youth and adult activities;
- Continue multi-municipal cooperation to meet the needs of residents.

Your input from this questionnaire is an important component of preparing the Master Site Plans for each site. Funding assistance for these projects has been provided by the PA Department of Conservation and Natural Resources.

1. Please tell us how your household has used the **municipal parks and outdoor school district facilities** in the Centre Region over the past five years. (Please check all that apply)
