[Spring Creek Watershed Action Plan \(SCWAP\) Update from Terry Melton](#)

"...In conclusion, the top metrics agreed upon for measuring water quality were: macroinvertebrates, temperature, chlorine, chloride, nutrients, sediment, dissolved oxygen (DO), and flow...The meeting concluded with a plan for both water quality and water quantity groups to meet again on September 20, 7 pm, Ferguson Township building."

[Updates from a Chester County Court Battle of People v. Toll Brothers](#)

"...As this conditional use application from Toll Brothers would permanently impair environmental and historic resources at Crebilly Farm, the Environmental Rights Amendment must take precedence over the conditional use process since the state Constitution supersedes all laws passed by the legislature..."

**Keep fighting for people power!**

Politicians and rich CEOs shouldn't make all the decisions. Today we ask you to help keep Change.org free and independent. Our job as a public benefit company is to help petitions like this one fight back and get

heard. If everyone who saw this chipped in monthly we'd secure Change.org's future today. Help us hold the powerful to account. Can you spare a minute to become a member today?
